From the desk of the MANAGING DIRECTOR**Chairman's Message**

Dear Shareholders,

It's my pleasure to extend a Warm Greetings to you all!

I take the pleasant privilege of addressing you on the occasion of the 19th Annual General meeting of our company.

The year 2012-13 was challenging for the global economy, as well as the entertainment industry. Though a challenging year globally, we have successfully managed in consolidating our position. Our performance in FY 2013 assumes more significance when evaluated against the backdrop of a challenging global and domestic business environment. Your Company in spite of current turmoil in the industry was able to post a performance better than the previous year. It is with a sense of pride that I enumerate some of the significant developments of our Company in the last fiscal.

During the year under review, we focused on achieving the expansion of our channel base in the regional market –Karnataka. The Channel 'Raj Music Kannada' our 24x7 Kannada Music channel launched in the previous financial year 2012-13. With this confidence and brand reach, we launched the Channel 'Raj News Karnataka' 24x7 Kannada News Channel during the current year 2013-14. Your Company has planned to increase our offering in Telugu Language with a mass appeal and also, geared up to re-launch three Telugu Channels covering different Genres.

Your company during the previous year has been evaluating various new mediums of Content Distribution, In the process your company have tied up with the World's largest internet Content platform -Google Ireland Limited for content sharing in Google Platforms with various Mobile, Internet based & hand held devices and also started promoting the content through [www.youtube.com /RajTV](http://www.youtube.com/RajTV).

During the current year your company launched exclusive website for distribution of contents via 'rajtv.tv' and your company makes efforts to provide wide mix of programmes in e-platforms and your company is confident that it will augment a substantial revenue addition in the years to come. Your company is building a sustainable digital business model with strong cross platform presence on all devices and screens and leveraging the opportunity due to the digitisation drive, we will be launching various products in the near future to fully exploit the opportunities available in the marketplace.

Your Company is looking forward to 2014 being a very exciting year in terms of growth of India's Television industry, riding on the digitization wave. From mere aspiration, digitization is now going to become a reality over the next few quarters. I strongly believe that, with the digitization drive and consolidation in the cable industry, the ability to control the market share in terms of quality, technology and service will rest with few dozen players. The Digitization efforts have translated into enhanced subscription revenues for your company and less distribution cost. Your company will be relieved from paying huge sums as carriage fee, thereby increasing profitability and enabling them to focus on better content creation. At the same time, subscription revenues will increase for broadcasters and make them less dependent on advertising and drive higher value creation. With consolidation of Cable scenario in Tamilnadu, the reach of the channel has improved substantially and your company is confident enough to fully exploit the opportunities and more revenue addition to the channel.

Your Company has good potential for revenue generation by exploring the hidden assets –movie rights by way of digitization and remake of old master piece movies and dubbing of the movies in to various languages. Your Company has ventured into the remaking of old master piece movie 'KARNAN' during the year 2012-13 and in terms of viewership and revenue, it has given a positive result and during the current year company proposes to release few movies in digital 3D platforms.

I thank our Board of Directors for their support and exemplary guidance. I also take this opportunity to express my gratitude to all our stakeholders, who continue to repose faith and trust in us over the years. Further with my whole heart I sincerely thank all the shareholders who continued their support over these years, without which our company would have not grown to this size.

Warm Regards

10 Earning Per Share

The Company reports basic and diluted earnings per equity share in accordance with AS-20, 'Earnings Per Share'.

- a) Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.
- b) For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

11 Prior Period Item

Income or Expenses which arise in the current period as a result of change in the preparation of the financial statements of one or more prior periods is shown as "Prior Period Item".

12 Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments. On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident. Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.
